**APPROVING THE FISCAL YEAR 2009 AUDIT PLAN.**

\* \* \* \* \*

**WHEREAS**, in accordance with the provisions of Article VA of the City Charter, the City is required to have a Department of Internal Audit which is charged with conducting financial, fiscal compliance and financial procedure audits; and

**WHEREAS**, the City Auditor is required to evaluate the adequacy and effectiveness of controls encompassing the City's operations and information systems, which should include reliability and integrity of financial and operational information; effectiveness and efficiency of operations; safeguarding of assets; and compliance with laws, regulations and contracts; and

**WHEREAS**, Park Pearson has been appointed and is serving as the Interim City Internal Auditor over the Department of Internal Audit; and

**WHEREAS**, with input from the elected officials and the City Manager's Office, and based on a risk assessment conducted by the Department, the City Internal Auditor has prepared an Audit Plan for Fiscal Year 2009; and

**WHEREAS**, the Audit Plan has been presented to and approved by the Audit Committee; and

**WHEREAS**, it is now necessary to present the Audit Plan to City Council for their consideration and approval; **NOW THEREFORE:**

**BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF SAN ANTONIO:**

**SECTION 1.** The Audit Plan for Fiscal Year 2009, as prepared by the City Internal Auditor and approved by the Audit Committee, is hereby approved. A copy of the Plan is attached hereto and incorporated herein for all purposes as Exhibit I.

03/19/08  
#19

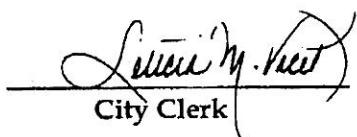

**SECTION 2.** The Fiscal Year 2009 Audit Plan may be amended by the City Auditor if he notifies and obtains the concurrence of the Audit Committee. In the event City Council or City Management has a special request for assistance from the Internal Audit Department, the request is subject to approval by either the Audit Committee or the Audit Committee Chair, depending upon the urgency of the issue.

**SECTION 3.** This Ordinance shall take effect immediately if passed by eight affirmative votes; otherwise, this Ordinance shall take effect ten days from the date of passage hereof.

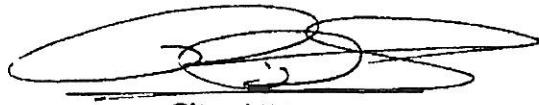

PASSED AND APPROVED this 19<sup>th</sup> day of March, 2009.

Members of the Audit Committee

March 3, 2009

San Antonio City Council

Enclosed is the 2009 Audit Plan of the Office of the City Auditor (CA).

It is consistent with our mission of providing transparent, accurate information to the citizens, elected officials, managers and community leaders of the City of San Antonio. Our work is vital to maintaining citizens' trust and confidence in the City's effective, efficient and economic deployment and use of its resources.

**Fiscal year 2008**

The past year was one of challenge for the staff of the Office of the City Auditor. The transition in leadership in the City Auditor's position and associated publicity resulted in some degree of turmoil and uncertainty. However, I am proud to report that our staff remained dedicated and focused on executing the 2008 Audit Plan approved by the Audit Subcommittee and the City Council. Other accomplishments include:

- Development of a training matrix designed to ensure continued and predictable professional development over the course of a career in the City Auditor's office.
- Update of audit and administrative manuals and development of a formal reporting protocol to provide professional and technical guidance ensuring the consistently superior conduct of our work and the issuance of our resulting reports.
- Provision of support, resources and technical advice to the Mayor's Ad Hoc Committee resulting in an Ordinance solidifying the independence of the City Auditor as well as enhancing the role of the City Council and its Audit Committee in providing appropriate oversight of our Office.

**Fiscal year 2009**

For the CA, fiscal 2008 was a year of investment in people, methodologies and processes to ensure that our work is conducted in an atmosphere of integrity and professional excellence. Our goals for 2009 are to leverage those investments to bring additional value to the citizens, Council and management from their investment in the CA.

Specifically, our goals are to:

- Improve our risk analysis of the City-wide operating environment and core business processes.
- Increase the use of technology in the audit process.
- Be viewed as a strategic asset by providing Council and management timely, independent and objective assessments and advice geared to improving City processes and programs.

---

- Develop and adhere to performance measures designed to improve the CA's productivity and to operate the Office in a more business-like manner.
- Continue to develop our people by investing in recruiting, training, and additional certifications resulting in the CA becoming a training ground for future leaders for other City departments.

We wish to thank the members of the Audit Subcommittee for their support during the past year and look forward to assisting you and the City Council in fulfilling your governance responsibilities for this great City of ours.

## Audit Plan Development

The Fiscal Year 2009 Audit Plan, developed through a citywide risk assessment, incorporates input from City Council Members, the City Manager and management team, various Department Directors, and the City's External Auditor. CA applied risk analysis techniques and professional judgment to rank this input and develop auditable areas including preliminary objectives. This approach ensures adequate audit coverage of a variety of City processes and programs in high-risk areas and recognizes concerns raised by Council and management.

## Contents of the Audit Plan

The plan includes 13 proposed audits (**Enclosure A**) and 11 audits carried over from FY 2008 (**Enclosure B**) including the level of resources estimated to complete these audits.

We displayed follow up audits as a separate line item (item #14 of **Enclosure A**). CA will determine which follow up audits to initiate by considering the high-risk areas from prior CA audits.

The plan also recognizes our desire to provide Council and management with timely support for special requests for assistance (item #15 of **Enclosure A**). These requests will be subject to approval by either the Audit Committee or the Audit Committee Chair, depending on the urgency of the issue.

We are also including a summary of all audits performed by CA since fiscal year 2003. The summary schedule categorizes the audits by City Department and Function and illustrates audit coverage over the past six years (**Enclosure C**).

With approval of the Audit Committee, this plan may be amended.

## CA Performance Measures

Performance measures are designed to offer more comprehensive information about program performance than traditional budgets provide. In other words, performance measures are concerned with the results of service delivery, and help provide a basis for assessing the economy, efficiency, and effectiveness of those services.

Performance measurement is one of several tools OCA uses to make informed allocation decisions and assess the effectiveness of its operations. As a tool, performance measurement also provides the City Council, the public, and other stakeholders a glance at CA program outcomes. These measures help build understanding of program operations, serve as a tool for setting priorities, chart progress, and help build trust in CA services. Our goal is to ensure services are meeting customer expectations. Citizens and other stakeholders invest substantial resources in the City and rightfully expect, in return, quality services at a reasonable cost that meet their needs.

The CA has adopted the following performance measure goals for FY 2009 to ensure the disciplined accountability of its operations.

Performance Measure	Description	Proposed 2009
Project Cost (Budgeted)	The percentage of projects where actual audit hours do not exceed those planned	60%
Number of audit products completed	The number of audit reports published	16
Audit Recommendations	The percentage of audit recommendations agreed to by management.	95%
Percent of Auditor Direct Time to Available Time	The percentage of available time devoted to audits.	78%
Audit Staff with Certifications	The percentage of audit staff with at least one professional audit related certification (CPA, CIA, CFE, or CISA).	50%
